17. Common daily workflows
18. Security and privacy
19. Important restrictions
20. Common errors and what to do
21. Using the site on a phone
22. Quick reference and daily checklist

1 Purpose of the Admin role

As an **Admin** you have complete access to the Infinito registration website. You can see and manage every participant, verify registrations, send QR passes, run the gate, manage colleges and add or remove staff.

Participants register through the Google Form. Their answers appear on this website automatically. From then on, everything – verification, QR passes, emails and gate entry – happens on this website.

Important Admins see **sensitive personal information** (for example the full Aadhaar number and the Aadhaar card). Only Admins can see these. Handle them carefully (see "Security and privacy").

What I can access

Area	Admin
Dashboard, participant list, search, filters	✓ Yes
Participant details incl. email, mobile, roll number, accommodation, remark	✓ Yes
Full Aadhaar number and Aadhaar card document	✓ Yes (Admin only)
College ID card	✓ Yes
Verify / reject / undo, send and resend QR emails, change email	✓ Yes
Check IN / Check OUT, block / unblock, override check-out of a blocked participant	✓ Yes
Inside, Outside, Blocked, Arrivals/Departures, Gate log, Colleges and college emails	✓ Yes
Staff management (add coordinators and volunteers)	✓ Yes (Admin only)

2 How to sign in

You do not need a password. You sign in with a **one-time link** sent to your email address.

- 1 Open the Infinito website address given to you by the organisers. You will see **Staff sign in**.
- 2 Type the email address that was registered for you as an Admin and tap **Email me a sign-in link**.
- 3 Open your email inbox. You will receive "**Your Infinito staff sign-in link**". If it is not there after a minute, check the Spam folder.
- 4 Tap **Sign in** in the email. A page **Sign in to Infinito** opens. Tap **Continue**.
- 5 You are signed in and land on the **Dashboard**.

Staff sign in

Coordinators and volunteers: enter the email you were registered with. We'll email you a sign-in link.

Mail me a sign-in link

The sign-in page

Check your email

If **you@example.com** belongs to Infinito staff, a sign-in link is sent to its way. It works once and expires in 15 minutes.

Open it on the phone or laptop you want to use. Nothing arrives in your inbox. Check spam, or ask an admin to add you.

After you ask for a link

Sign in to Infinito

Continue

The page that opens from the email link: tap Continue

Important A sign-in link works **only once** and expires after **15 minutes**. If you see "This link has expired or was already used", simply ask for a new link. A new link can be requested about once per minute.

Tip Open the link on the same phone or computer you want to use. You stay signed in on that device until you tap **Sign out** (top-right) or the session ends after some days.

3 Navigation overview

The menu at the top of every page:

Change email

Keeps the same participant, QR pass and history. Nothing is emailed automatically; use Send QR email afterwards.

Verification

Status: Verified · [Verify](#) · [Reject](#) · [Send QR](#) · [Send QR](#)

Top of a participant page

The page is divided into boxes:

- **Participant** – email, college, sport/event, mobile, college roll number, Aadhaar, accommodation, expected arrival and departure, remark and files.
- **Verification** – status, who verified/rejected and when, QR pass status, and the Verify / Reject buttons.
- **QR email** – how many times the QR email was sent, when, and its delivery status.
- **Gate access** – block or unblock.
- **Gate (actual IN / OUT)** – current state, actual check-in/out times, CHECK IN / CHECK OUT buttons and the gate history.
- **Emails** and **History** – every email and every action, with who did it and when.

Participant

Change email

new@example.com

Change email

Keeps the same participant, QR pass and history. Nothing is emailed automatically; use Send QR email afterwards.

The Participant box as an Admin sees it

Aadhaar and documents

- **Aadhaar** shows the **full number**, marked "(admin only)".
- Under **Files**: [Photo](#), [College ID card](#) and [Aadhaar card](#). Each opens in a new tab.

Privacy The full Aadhaar number and the Aadhaar card are visible **only to Admins**. Coordinators see only the last 4 digits (XXXX XXXX 1234) and cannot open the Aadhaar card. Volunteers also see only the last 4 digits.

If a file says "not uploaded", the participant did not upload it in the form.

Expected dates vs actual gate times

Expected arrival / Expected departure come from the form ("Check In Date" / "Check Out Date"). They are only the participant's **plan**. The real times are recorded only when someone does **CHECK IN / CHECK OUT** at the gate.

6 Verification

Every new registration starts as **Pending**. Nobody gets a QR pass until it is verified.

Verify a participant

- 1 Open the participant (Dashboard → click the row; use the **Pending** counter to see who is waiting).
- 2 Check the details, the photo and the College ID card.
- 3 In the **Verification** box click **Verify**.

Verification
Status **Pending**
QR pass created on verification
Verify
Rejection reason (emailed to the participant)

Reject
Verifying creates the QR pass (if needed) and emails it after 120s.

A pending participant

After verifying:

- The status becomes **Verified**.
- The participant's personal **QR pass** is created (one QR per person, used for all their sports).
- The QR email is sent to the participant after about **2 minutes**. This short wait lets you undo a mistake.

Verification
Status **Verified** by Ravi (Coordinator), 3 Oct, 02:30
QR pass created
Rejection reason (emailed to the participant)

Reject
Verifying creates the QR pass (if needed) and emails it after 120s.

A verified participant

Undo verification

Undo verification appears only while the QR email has **not yet been sent** and the participant has not entered. Use it straight away if you verified the wrong person. After the email has gone out, use **Reject** instead.

Reject

- 1 Type the reason in **Rejection reason (emailed to the participant)**, e.g. "College ID photo is not readable".
- 2 Click **Reject**. The reason is emailed to the participant after about 2 minutes.

Verification

Status **Rejected** by Ravi (Coordinator), 3 Oct, 02:30
Rejection reason College ID photo is not readable. Please re-submit the form.
QR pass created on verification

Verify

Rejection reason (emailed to the participant)

College ID photo is not readable. Please re-submit the form.

Update rejection

Verifying creates the QR pass (if needed) and emails it after 120s.

A rejected participant

- A reason is required.
- Rejecting a verified participant also cancels their pass (the gate will show NOT VERIFIED).
- You cannot reject someone who has already checked in.
- The participant can fill the form again with correct details; their registration then returns to Pending.

7 QR email

QR email

Sent 1 x · last 3 Oct, 02:30

Manual sends 0 (no limit)

Resend QR email

The QR email box

- The first QR email is sent automatically after verification.
- To send it again, click **Send QR email** / **Resend QR email**. It always contains the **same** QR pass and goes to the participant's **current** email.
- Only verified participants can receive a QR email.
- Only one QR email can be waiting at a time. If you see "A QR email for this participant is already queued", wait a minute.
- The box shows how many times it was sent, the last time, and whether it was delivered or bounced.

8 Change a participant's email

- 1 Open the participant.
 - 2 In the **Participant** box, type the new address under **Change email** and click **Change email**.
 - 3 If needed, click **Send QR email** so the pass goes to the new address.
- The address is checked. An invalid address, or one that already belongs to another participant, is refused with a message.
 - It is still the **same participant**: the same QR pass, verification and gate history stay connected.
 - Nothing is emailed automatically when you change the email.
 - Emails that were still waiting to be sent go to the new address.

9 Check IN and Check OUT

You can record entry and exit from the participant page without scanning the QR.

Gate (actual IN / OUT)

CHECK IN / CHECK OUT here works without scanning the QR. It follows the same rules as a scan (verified, not blocked, current state) and is recorded as a manual action under your name.

Now Outside
Actual check-in Not yet
Actual check-out Not yet

CHECK IN

Participant outside – CHECK IN

- 1 Participant is outside: click **CHECK IN**. The page confirms the exact time and the participant is now **Inside**.
- 2 Participant is inside: click **CHECK OUT**. They are now **Outside**.

Gate (actual IN / OUT)

CHECK IN / CHECK OUT here works without scanning the QR. It follows the same rules as a scan (verified, not blocked, current state) and is recorded as a manual action under your name.

Now Inside since 03 Oct 2026, 02:30:17
Actual check-in 03 Oct 2026, 02:30:17
Actual check-out Not yet

CHECK OUT

Time	Action	Result	Gate	Staff
03 Oct 2026, 02:30:17	IN	refused: already inside	Main gate	Neha (Volunteer)
03 Oct 2026, 02:30:17	IN	ok	Main gate	Neha (Volunteer)

Participant inside – CHECK OUT, with the gate history

- Only verified participants who are not blocked can be checked in.
- Someone already inside cannot be checked in again. Someone outside cannot be checked out.
- After checking out, a participant can check in again later.
- Every attempt (including refused ones) is listed with the time, action, result, gate and staff name.
- Actions done from this page are recorded as manual actions under your name.

Important Expected arrival (from the form) is not a check-in. A participant is "Inside" only after a real CHECK IN.

10 Block and unblock

Gate access

Block reason (optional, internal)

e.g. Registration issue

Block participant

Blocking stops check-in and check-out with this QR for every event. Verification, QR and history are kept.

Gate access box – not blocked

- 1 Open the participant.
- 2 In **Gate access**, optionally type a reason (only staff see it).
- 3 Click **Block participant**.

A blocked participant's QR is refused for **both check-in and check-out**, for all their sports. The gate only sees **ACCESS BLOCKED** – not the reason. Verification, QR pass and history are kept.

Gate access

BLOCKED since 3 Oct, 02:30 by Ravi (Coordinator)

Reason: Registration issue

The QR is refused for check-in and check-out at the gate (all events) until unblocked.

Unblock participant

A blocked participant

To lift the block, click **Unblock participant**. The same QR works again.

Blocked while inside – Admin override

If a participant is blocked while inside, they stay recorded as inside and the gate cannot check them out. When they leave, an Admin can click **Admin override: record check-out**. This is recorded as an override.

Gate (actual IN / OUT)

CHECK IN / CHECK OUT here works without scanning the QR. It follows the same rules as a scan (verified, not blocked, current state) and is recorded as a manual action under your name.

Now **Inside** since 03 Oct 2026, 02:30:17

Actual check-in 03 Oct 2026, 02:30:17

Actual check-out Not yet

Admin override: record check-out

Time	Action	Result	Gate	Staff
03 Oct 2026, 02:30:17	IN	ok	Main gate	Neha (Volunteer)

Admin override for a blocked participant who is inside

11 Inside, Outside and Blocked lists

- **Inside** – everyone inside right now.
- **Outside** – everyone not inside (never entered, or checked out).
- **Blocked** – everyone who is blocked.

These open the Dashboard with that filter. You can still filter by sport and search. Click a row to open the participant.

Expected arrivals for today

- 1 Click **Arrivals** in the menu. Today's expected arrivals are shown.
- 2 Use **Today**, **Tomorrow** or pick a **Date**, optionally choose an **Event** and a **College**, and click **Show**.
- 3 Switch between **Expected arrivals** and **Expected departures** with the buttons at the top.

Number	Meaning
Expected arrivals	Planned to arrive on that day (from the form).
Already arrived	Checked in at the gate at least once.
Not arrived yet	Expected but not checked in.
Checked out / Still inside / Never arrived	(Departures page) actual gate state of people expected to leave that day.
Blocked	Blocked participants in the list.

When more than one college is listed, a **By college** table shows the same numbers per college.

Important The **expected** date is only the participant's plan. "Arrived" and "Checked out" come only from real gate scans.

- 3 Click **Save**. The person can now sign in with an email link (no password).

Role	Choose it for
volunteer	Gate helpers: scan passes, check in/out, find participants.
coordinator	Registration team: verification, emails, block/unblock, colleges, arrivals, gate log. No staff management, no full Aadhaar.
admin	Only people who need full access, including sensitive data and staff management.

- **Disable** immediately signs the person out everywhere; **Enable** restores access.
- To change a role, save the same email again with the new role.
- You cannot disable yourself or remove your own admin role.

Tip Give each person the **lowest role** that lets them do their job.

16 Scan and Find participant

Scan page

- 1 Tap **Scan** in the menu.
- 2 The first time, the browser asks to use the camera. Tap **Allow**. The camera picture appears.
- 3 Optional: type your gate name in **Gate** (for example "Main gate"). The phone remembers it.
- 4 Point the camera at the participant's QR code. The participant's gate card opens automatically.

Tip If the camera does not start, tap **Start camera**, check that camera permission is allowed for the website, or scan the QR with the phone's normal camera app – the pass opens in your browser if you are signed in there. You can also paste the pass link into **Or paste the pass link / code** and tap **Open**.

Find a participant without a QR

On the Scan page use **No QR? Find the participant by name or college** and click **Find**. Open the person from the list. The card warns "Manual gate (no QR scanned)" – check the photo and College ID before admitting.

The gate card

What the card shows	What it means	What to do
Green MARK ENTERED (CHECK IN)	Verified participant, currently outside .	Check the photo, name and college. Then tap the green button.
ALREADY ENTERED · INSIDE and CHECK OUT (OUT)	The participant is currently inside .	Do not let them in again. Tap CHECK OUT only when they are leaving.
NOT VERIFIED · DO NOT ADMIT	The registration has not been verified (or was rejected).	Do not admit. Send the person to the help desk / a coordinator.
ACCESS BLOCKED	The organisers have blocked this participant.	Do not admit or check out. Ask them to contact a coordinator/admin.
INVALID QR	The code is not an Infinito pass.	Do not admit. Ask for the email with their QR, or send them to the help desk.

On the gate card an Admin also sees **Open full participant page**.

17 Common daily workflows

Morning: clear the verification queue

- 1 Dashboard → click **Pending**.
- 2 Open each participant, check details and College ID.
- 3 Click **Verify**, or **Reject** with a clear reason.

Before the gates open

- 1 Arrivals → **Today**: see who is expected.
- 2 Open anyone still Pending and verify them.
- 3 Check the **Blocked** list.

“I did not get my QR”

- 1 Search the participant’s name or email.
- 2 Check the **QR email** box (sent? bounced?) and the email address.
- 3 Fix the email with **Change email** if it is wrong, then click **Send QR email**.

During the event

- Watch **Inside / Outside** and the **Gate log**.
- Handle blocked cases from the participant page.
- At the end of the day check **Departures**.

18 Security and privacy

Privacy You can see full Aadhaar numbers, Aadhaar cards, emails and mobile numbers. Only open them when needed, never copy them into chats, spreadsheets or photos, and never share your screen while they are visible.

- Never forward your sign-in email or link to anyone.
- Sign out on shared computers.
- Use **Staff** to disable accounts of people who no longer help.
- Give the Admin role only to people who truly need it.

19 Important restrictions

- A participant cannot be checked in unless verified and not blocked.
- A registration cannot be rejected after the participant has checked in.
- Undo verification is only possible before the QR email is sent.
- A blocked participant cannot be checked in or out at the gate (only the Admin override records an exit).
- You cannot disable yourself or remove your own Admin role.

20 Common errors and what to do

You see	What to do
"This link has expired or was already used"	Request a new sign-in link.
No sign-in email	Check Spam; wait a minute and try again; make sure an Admin added your email.
"Not verified, so there is no pass to send"	Verify the participant first.
"A QR email for this participant is already queued"	Wait a minute; the previous email is still being sent.
"... already belongs to another participant"	That email is used by someone else. Check you opened the right person.
"Already entered ... can no longer be rejected"	The participant has entered; rejection is not possible.
"QR emails have already been sent; use Reject..."	Undo is no longer possible; use Reject with a reason.
Email shows "bounced"	The address is wrong. Change the email and send the QR again.
"Not a valid email"	Correct the typing.

Message on screen	Meaning
 ENTERED (CHECK IN): name · college · event · time. Now INSIDE.	Entry recorded at that exact time.
 CHECKED OUT: name · college · event · time. Now OUTSIDE.	Exit recorded.
ALREADY ENTERED: inside since ... Do not admit again; check out first.	They are already inside. Someone may be re-using the pass.
Cannot check out: this participant has never checked in / not inside.	There is nothing to check out.
ACCESS BLOCKED: registration access has been blocked...	Blocked participant – no IN or OUT allowed.
NOT VERIFIED. Do not admit.	Registration is not verified.

21 Using the site on a phone

The website is the same on a phone and on a computer. There is no separate app and nothing to install.

- Open the website in your phone's normal browser (Chrome, Safari, Edge...) and sign in the same way.
- The menu at the top is the same; on a narrow screen the links simply wrap onto a second line.
- Wide tables can be **scrolled sideways** with your finger.
- Turn the phone sideways (landscape) if you want to see more columns at once.
- Long names and email addresses wrap onto the next line.

Tip For gate work, a phone is easiest: use **Scan**. For verification and colleges, a computer is more comfortable.

22 Quick reference and daily checklist

I want to...	Go to
Verify / reject	Dashboard → Pending → participant → Verification
Resend a QR	Participant → QR email → Send QR email
Fix an email	Participant → Change email
See who is inside	Inside
Block someone	Participant → Gate access → Block participant
Today's arrivals	Arrivals → Today
Email a whole college	Colleges → college → Send QR to all verified students
Add a volunteer	Staff → Add or update → role volunteer

Admin daily checklist

- ☐ Check Pending registrations and verify or reject them
- ☐ Check today's expected arrivals
- ☐ Check the Blocked list and handle blocked cases
- ☐ Look at bounced or failed QR emails and fix email addresses
- ☐ Monitor Inside / Outside and the Gate log during the event
- ☐ Check expected departures at the end of the day
- ☐ Disable staff accounts that are no longer needed
